

# What we know about effective prevention:

## DISCUSSION QUESTIONS

1. *What do you think of the fact that making it a little harder for someone who may be suicidal to get a loaded gun, pills, time alone, alcohol...can save their life?*
2. *What kinds of deadly means do people around here have available most of the time? What does this information make you think about?*
3. *Are there some examples from your lives that show how to go about making someone's home safer?*
4. *What makes it hard to limit a young person's access to a loaded gun, to alcohol or pills 100% of the time?*
5. *Since it is so important, what could help make it easier to remember to do this?*

**Write three or more “takeaways” from your group’s discussion:**
